

Is this what “math night” at your school looks like?

INVITE MÜ-MATH OVER & WATCH WHAT HAPPENS

Do our subway maps lie to us?
The answer might surprise you.

Perform feats of algebra by
moving pickles between barrels.

Learn how topology can help
you get the lights turned on...

Angle your way out of a 100
square foot maze of streets
and avenues...

Find your fare using
“taxicab geometry”...

Unlock the pattern to
keeping the subways
running on time...

Would your school like to organize a fun and educational event, as well as raise funds with a minimum of investment and preparation? We have the answer: **Mü-Math: The Mobile Unit to Promote Mathematical Thinking**, a dynamic and provocative collection of mathematics activities that will engage and entertain children and parents alike. Each of our exhibits conveys “big” mathematical ideas in contexts that are relevant to life in the big city. **Mü-Math** will provide fun and challenges for all students and their families, regardless of mathematical proficiency. At SMI-NY, we truly believe that mathematics is an activity that families can share with one another in a safe, friendly and fun environment.

SEE OUR FAMILY MATH NIGHT SLIDESHOW AT WWW.MU-MATH.COM

At SMI-NY, we do our best to design, construct and distribute engaging and entertaining mathematical materials for children and parents. From reservation to pack up, we'll be with you every step of the way to make sure your Family Math Night is a success, both in building a mathematical community and as a fundraising event for your school. Follow the instructions below and you'll see for yourself.

How Do You Host A Mü-Math Family Night ?

RESERVE

Call us at 718 909-8343, or send an e-mail to info@smi-ny.com with 3 possible dates that you would like to hold the event. We'll confirm your reservation within 24 hours. Days or evenings are okay!

LOCATE

Our interactive exhibits can fit inside a school cafeteria, gymnasium, 4 average sized classrooms, or a combination of spaces, depending on the number of attendees. Just be sure there are an ample number of tables and chairs for your families to stretch out and work.

RECRUIT

Each exhibit can be staffed by a single volunteer, although more are always helpful. We'll send a detailed exhibition book for your docents to peruse, so they can get families started and drop hints at appropriate times.

Fund Raise

Sell advertising and sponsorships on the posters, brochures, e-blasts and parent "take-away" materials we'll design and print for you. Hold a raffle for donated prizes, and provide tables where your sponsors can distribute information.

SET UP

Mü-Math takes about 40 minutes to set up; we'll arrange to deliver the materials at a time that is convenient for your school. On-site overnight storage is easy: Mü-Math easily fits into a small closet!

Do MATH!

Encourage your families to try as many activities as possible. We'll supply "guided tours" so that your students will know which exhibits are appropriate for them. Make sure there are plenty of refreshments for sale: math makes you hungry!

PACK UP

At the conclusion of your event, we'll be there to help you pack the materials into their containers and transport them out of the building, a process that takes about 30 minutes.

The rental fee for Mü-Math is \$495, which includes drop-off and pick-up from your school, assistance from a specialist for setup, staging and pack-up, as well as publicity, preview activities and "tour books." We can also provide math games and puzzles to help raise additional funds for your school.
